

O'Neal Ombu

I have a solid background in creating beautiful, stable, high performance and functional web applications using HTML, CSS, JavaScript, NodeJS, ExpressJS, React, MongoDB, MySQL. I have proven experience working on the FrontEnd and BackEnd Development.

I am passionate about good code and practices, I can work independently and I am result driven. I feel comfortable working with a good team of developers that constantly challenge me and push me to learn new things, I enjoy working on challenging tasks that can keep my mind going even while I sleep.
